

PM Evaluation & Therapy Services

Our organization provides all services utilizing the Home/Community model of service delivery. This allows us to provide services that build on current family structures and routines in order to promote the development of the child.

We are very flexible, and are able to attend to your child in various locations. Teachers and therapists can service your child at home, at a daycare, or at a community center.

Our main goal is to provide quality care for your child and strong support for your family. With PM Evaluation & Therapy Services, you can be sure that you are receiving excellent, state-approved treatment for your child.

Who We Are

About Us

PM Evaluation is a New York state authorized provider of early intervention services. We offer home and community based care in Queens, Manhattan, Bronx, Brooklyn, and Staten Island.

Our organization strives to develop children's emotional, physical, social, communicational, and cognitive strengths.

Our instructors form individualized programs for each child, and help them meet age-appropriate goals.

We work to increase each child's independence, and assist them in learning to interact in multiple environments.

We also provide embedded coaching to the parents and families so they can properly support the children in their daily routines.

Contact us so we can support and guide you through the Early Intervention process

PM Evaluation & Therapy Services

Our organization offers a wide variety of therapeutic and support services to eligible infants and toddlers with developmental delays and disabilities. We also provide family education, counseling, and home visits.

If you are concerned about your child's development, PM Evaluation & Therapy Services will create and complete the referral for your child in the NY State Early Intervention System (NYEIS).

Facts about the NYC Early Intervention Program

The Early Intervention Program (EIP) is a public program that offers services to children under age 3 with a suspected or diagnosed developmental delay or disability.

Children with diagnosed conditions that lead to developmental delays (such as Down's Syndrome, Cerebral Palsy, Autism, Communication disabilities, etc.) are eligible for the EIP.

Children with no diagnosis who have delays in development may be eligible for the EIP if their delays are negatively impacting their development.

If you have concerns about the development of your child, seek help. The earlier an issue is detected, the better it is for your child.

Your child's health insurance may be used to cover some of the cost. All other costs for EIP services are paid for by your county and New York state.

Eligibility

A child's eligibility is determined only by New York State approved evaluators under contract with the county. Additionally, all services must be authorized by the county EIP.

Our Products and Services

We are approved by the New York State Department of Health to provide a wide range of services to children and students from birth through three years of age.

We provide the following services:

- Supplemental Evaluation
- Service Coordination
- Speech Therapy and Special Instruction
- Applied Behavioral Analysis (ABA)
- Functional Behavior Assessments (FBA)
- Behavior Intervention Plans (BIP)
- Family Training

All instructional programs are tailored to each child's unique needs using verbal behavior, discrete trials, task analysis, natural environment teaching, and much more.

Service You Can Trust

The quality of our behavior analysis methods and procedures are closely monitored by program and field supervisors with BCBA certifications.
